Brand Guidelines

From Campus to Career • 2026

Made con Cariño by Jocelyn Vazquez

Welcome!

Welcome to From Campus to Career, a first-gen career platform helping students, interns, recent grads, and early-career professionals navigate what comes after school.

We make the journey from campus to career more transparent through real stories, practical resources, and community support.

Because no one should have to figure it out alone.

Y ahora qué? We build from here.

Logo System

Logo System

The From Campus to Career visual identity includes two core marks: the **Wordmark** and **Sunny the Sun**. To keep our brand clear and consistent, the Wordmark should be treated as our **primary and official logo**.

The **Wordmark** is our main brand asset. It should be used across our website, newsletter, social media, presentations, partnerships, and community materials.

Sunny the Sun is our mascot mark. Sunny adds warmth, personality, and our “el sol sale para todos” spirit, but should support the brand rather than replace the primary logo.

Wordmark

FROM CAMPUS TO CAREER

From Campus to Career

Logo Hierarchy

To keep the brand consistent, From Campus to Career uses the following logo hierarchy:

Primary Logo

- Main From Campus to Career wordmark
- Used for official and outward-facing materials
- Best for websites, presentations, headers, partner decks, and major brand moments

Alternate Logo

- Wordmark paired with the tagline “El sol sale para todos”
- Used when the brand needs more context, warmth, or storytelling
- Best for social graphics, community materials, event visuals, and campaign moments

Primary Logo

to Career

El sol sale para todos 

Logo Hierarchy

To keep the brand consistent, From Campus to Career uses the following logo hierarchy:

Submark Logo

- Simplified circular logo mark
- Used when the full logo is too large or visually crowded
- Best for profile images, stickers, icons, badges, merch, and small-space applications

Mascot Mark

- Sunny the Sun as a standalone brand character
- Used to add personality, emotion, and playfulness
- Best for social content, community posts, reactions, stickers, Discord, and informal brand moments

to Career

Co-Branding

When co-branding with an outside organization, student group, sponsor, or community partner, logo placement and size should feel clear, balanced, and easy to read. The From Campus to Career logo and partner logo should appear at a similar visual weight and follow proper spacing for both brands. The From Campus to Career **Wordmark** should be used as the primary mark in most co-branded materials. The **Submark** or **Sunny the Sun** may be used only when the Wordmark feels too crowded or hard to read.

This keeps the brand consistent, recognizable, and aligned with our mission.

Depending on the layout, logos may be placed horizontally or stacked with a thin line between them. For casual collaborations, a lowercase “x” may be used to show partnership. The final layout should always feel clean, readable, and balanced.

Co-Branding

Primary Co-Branding (Main)

The From Campus to Career **Wordmark** should be used in all official co-branded assets. Use the **Submark** or **Sunny the Sun** only when the Wordmark is not legible due to scale, spacing, or layout.

Logo Usage Guidance

To keep From Campus to Career consistent across all platforms, this guidance outlines when to use the **Primary Logo**, **Alternate Logo**, **Submark**, and **Sunny the Sun**.

Each logo has a specific role. The **Primary Logo** should lead official brand moments, while the Alternate Logo, Submark, and Sunny add flexibility, warmth, and personality when needed.

Use the Primary Logo

Digital

- Website headers and landing pages
- Newsletter headers
- LinkedIn and Substack banners
- Social media profile covers
- Video intros and outros
- Partner-facing digital assets
- Public resource pages

Print & Physical

- Event flyers
- Posters and signage
- Stickers and merch
- Table displays and banners
- Campus tabling materials
- Workshop or event handouts

Use the Primary Logo

Presentations

Communications

- Title slides
- Partner decks
- Sponsorship decks
- Orientation slides
- Workshop presentations
- Community event decks
- End slides and thank-you slides

- All public-facing chapter materials
- Flyers, programs, and event announcements
- Press releases, media kits, and community-facing documents

Use for Wordmark (Alternate Use)

- The wordmark “From Campus to Career” may only be used in limited internal or small-scale applications where the Primary Logo is not legible.
- Social media posts
- Email Signatures (team members, volunteers, and collaborators)
- Internal Documents (internal slide decks, agendas, planning docs, or team updates)
- External Decks: Use the Primary Logo on the cover page. Use the Wordmark on internal or in-between slides for consistency and readability.
- Letterheads
- Small-Space Applications where the Primary Logo isn’t legible (e.g., small digital icons, badges, forms, narrow layouts)
- Website headers & public landing pages

Typography

Typography

We use two main typefaces: **TAN Nimbus** and **Poppins**. Together, they create a brand that feels warm, bold, nostalgic, and easy to read across platforms.

TAN Nimbus is our display typeface. It brings personality, warmth, and a vintage-inspired feel. Use it for large headlines, logo moments, campaign titles, section headers, and bold brand phrases.

Poppins is our supporting typeface. It keeps the brand clean, modern, and readable. Use it for body text, captions, descriptions, buttons, labels, newsletters, website sections, and resource guides.

Together, these fonts balance expressive storytelling with practical clarity, helping From Campus to Career feel both community-centered and professional.

TAN Nimbus gives us personality. Poppins keeps us clear.

Imagery

Imagery

Our photography should reflect the From Campus to Career community: students, interns, recent grads, early-career professionals, mentors, and partners.

Photos should feel warm, real, and people-centered. Focus on candid moments, conversations, workshops, storytelling, collaboration, and the in-between moments of the campus-to-career journey.

Avoid overly posed, corporate, or stock-style images. Choose visuals that show growth, connection, confidence, and support.

Note: Avoid photos with alcohol, inappropriate settings, or visuals that do not align with our student-centered mission.

Color Layers

Color layers may be added to photos to improve text readability and create a cohesive From Campus to Career look.

Use brand colors that match the mood of the image and keep the design warm, clear, and easy to read.

Color layers are especially helpful when photos feel too busy, too bright, or disconnected from the overall brand.

Keep it readable, warm, and on-brand.

Graphics

Graphics

We have developed a graphic system that feels warm, playful, and community-centered. The system is built from simple shapes inspired by the sun, campus spaces, stickers, and bold visual storytelling.

There are five basic elements in this system:

Email Signatures

Having consistent email signatures across the From Campus to Career team helps keep our brand clear, professional, and recognizable.

Emails are one of our main points of contact outside of social media, newsletters, and community platforms. Team members, volunteers, and collaborators should use the approved From Campus to Career email signature template when communicating on behalf of the brand.

The signature template includes space for your name, role, contact information, and From Campus to Career links. Please use the version that best fits your role while keeping the overall format consistent.
